1 VISION

To be the leading Investment and Empowerment Company in the world, creating an inheritance for our children's children. Sharing and growing in knowledge and innovation.

1 MISSION

Our mission is to create sustainable growth in the personal and economic lives of the members of our community and beyond. Shoroka was founded by the idea that "A good man leaves an inheritance for his children's children" and that we can only do so by building great foundations not only in "soil" but in the hearts and minds of our children and peers.

"Sons of the soil, seed of the mind!"

Meaning we all are born and die of the soil. Yet all we are and can be is birthed and seeded in the mind. This seed is transferable, and when transferred and shared it is extremely fruitful, bearing and bringing forth forests and great plantations.

1 VALUE STATEMENT

Were you get that "First Class" experience ALWAYS!

INTRODUCTION

Our Motto *"Sons of the soil, seed of the mind!"*

There is a something in the Far East called the Chinese Bamboo Tree, it's a very hard nut to grow. In fact it takes five years of watering, fertilization and nurturing just to break ground. If at any moment the watering, fertilization and nurturing stop, the Chinese Bamboo Tree will die in the ground. Now in that fifth year once it breaks through the ground in just six weeks it will grow up to 27.5 meters tall.

Now the question is, 'Does it take six weeks or five years to grow?'

It's obvious, it takes five years, of nurturing, growing, learning the system, learning people, figuring it out, of toiling the soil, of fertilization, and building the credibility, not only planting but developing the soil around you. This is how Shoroka Creations (Pty) Ltd t/a Shoroka was established. To deliver quality products that took time to develop but delivered on time and services of value that add value to the consumer.

Shoroka has a commitment to delivering quality products and service. Our key divisions are in construction, logistics, transportation, safety solutions and cooperate solutions. Divided into operational divisions that act independently of each other, yet complement each other by remaining committed to our vision and core values, and is achieved through innovation, leadership, growing and developing ourselves and those we serve. This is how Shoroka achieves delivering top quality products and services that exceed the expectations and raise satisfaction levels of our clients.

WHY SHOROKA?

Shoroka is committed to:

- | | |
